

GEOINFO CONFERENCE

October 1 & 2 DELFT2018

**UNIVERSITY
OF TWENTE.**

Call for papers

We are pleased to invite you to the 2018 3D Geoinfo Conference hosted in Delft, Netherlands! Aiming to bring together international researchers from academia, industry and government in the field of 3D geoinformation, the conference offers an interdisciplinary forum to researchers in the fields of data collection, advanced modelling approaches, data analysis and visualisation.

The conference will focus on developments and applications in advanced 3D data and technologies as well as provide a platform for these topics to be discussed and for research ideas to be exchanged. There will also be opportunities to promote international collaboration in geoinformation, 3D data analysis and visualisations. The conference is part of the joint event **Geo Delft 2018**, taking place October 1 - 5.

Contributions addressing the following topics are welcome:

- 3D data acquisition and processing
- 3D city modelling and its standards
- 4D/5D Modelling, BIM
- Visualisation and dissemination of 3D data
- 3D GIS, spatial analysis and its applications (cadastre, utilities, infrastructure, navigation, planning, geology, disaster and risk management, archaeology, marine systems, simulations)

Publications

The accepted papers will be published in the ISPRS Annals or the ISPRS Archives, both are indexed by SCOPUS. Authors of selected papers may also be invited to extend their paper for possible publication in ISPRS Journals. Prospective authors are encouraged to consider the following possibilities for submission:

• **Full papers** will be published in the ISPRS Annals or ISPRS Archives after being accepted in a double-blind review. The submitted papers should report new or improved techniques, algorithms, benchmarks, technology developments, frameworks, and best practices, which are not published elsewhere. Papers will be evaluated based on their originality, novelty, and impact. Full papers not accepted for ISPRS Annals might be considered for the ISPRS Archives.

• **Abstracts** will be published in the ISPRS Archives after being accepted in a double-blind review and extended into papers. Abstracts on their own will not be published. The submitted (extended) abstracts can be professional/demo papers demonstrating innovative systems and practical approaches, or research in progress.

The papers should be limited to 8 pages and submitted in the ISPRS template.

🐦 @3DDelft2018

Important dates

March 31, 2018

- Full paper submission

April 30, 2018

- Abstract submission

May 15, 2018

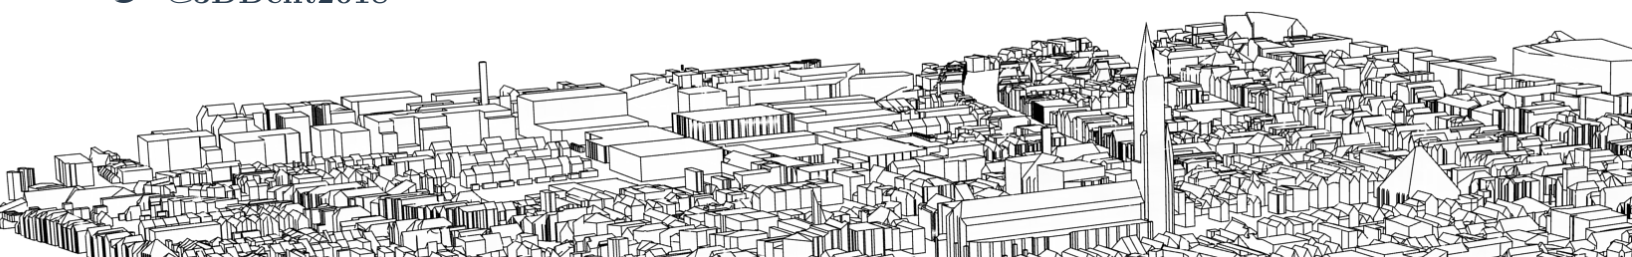

- Author notification

June 15, 2018

- Final version of full papers

October 1-2, 2018

- Conference

Organising Committee

Delft University of Technology

Jantien Stoter (local co-chair)
Mila Koeva (co-chair) (University of Twente)
Ken Arroyo Ogori
Weixiao Gao
Anna Labetski
Hugo Ledoux
Liangliang Nan
Stelios Vitalis

Scientific Committee

Giorgio Agugiaro (Austrian Institute of Technology)
Alias Abdul-Rahman (Universiti Teknologi Malaysia)
Mulhim Al-Doori (American University in Dubai)
Ali Aien (University of Melbourne)
Sam Amirebrahimi (University of Melbourne)
Ken Arroyo Ogori (Delft University of Technology)
Apostolos Arvanitis (Aristotle University of Thessaloniki)
Behnam Atazadeh (University of Melbourne)
Siddique Ullah Baig (Universiti Teknologi Malaysia)
Filip Biljecki (National University of Singapore)
Lars Bodum (Aalborg University)
Pawel Boguslawski (University of the West of England)
Martin Breunig (Karlsruhe Institute of Technology)
Rémi Cura (IGN / THALES)
Sagi Dalyot (IKG)
Philippe De Maeyer (Ghent University)
Efi Dimopoulou (NTUA)
José-Paulo Duarte de Almeida (University of Coimbra)
Lucía Díaz Vilariño (Universidad de Vigo)
Claire Ellul (University College London)
Caroline Gevaert (University of Twente)
Andreas Georgopoulos (NTUA)
Gerhard Groeger (Bonn University)
Eric Guilbert (Université Laval)
Ihab Hijazi An-Najah (National University)
Charalabos Ioannidis (NTUA)

Umit Isikdag (Mimar Sinan Fine Arts University)
Martin Kada (Technische Universität Berlin)
Mohsen Kalantari (The University of Melbourne)
Zhizhong Kang (China University of Geosciences)
Ismail Rakip Karas (Karabük University)
Baris Kazar (Oracle America)
Kourosh Khoshelham (University of Melbourne)
Mila Koeva (University of Twente)
Thomas Kolbe (Technische Universität München)
Claudine Metral (University of Geneva)
Ivin Amri Musliman (Universiti Teknologi Malaysia)
Romain Nouvel (HFT Stuttgart)
Hamed Olfat (Land Use Victoria)
Sander Oude Elberink (University of Twente)
Nicolas Paparoditis (IGN)
Michael Peter (University of Twente)
Jacynthe Pouliot (Université Laval)
Siva Ravada (Oracle)
Carl Reed (OGC)
Soheil Sabri (University of Melbourne)
Davood Shojaei (Land Use Victoria)
Jantien Stoter (Delft University of Technology)
Edward Verbree (Delft University of Technology)
Shen Ying (Wuhan University)
Sisi Zlatanova (University of New South Wales)
